### Startling but True.

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warder it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. WILCOX, Logan, New York. Sold by Ed Greene and all druggists.

President T. J. L. Brown of the Fair Association, has been campaigning through Florida for two weeks in the interest of the coming State Fair to be held at Tampa, November 14th to 29th, and has been enthusiastically received in every county and city visited. Every indication is that there will be a much greater attendance at the coming Fair than at that of last year, and extensive preparations are being made to accommodate the crowds. Those attending will be surprised at the improvement in the Fair, particularly will this be the case with amusement features. Through the formation of the Southern Fair Circuit, composed of seven southern states, amusements of a character never before seen in the south will be brought to Tampa. A special committee of the Circuit is now visiting New York and Chicago for the purpose of securing attractions. Preparations are being made for the accommodation of 200 of the fastest running horses in the country at the race track on the Fair grounds.

Determined to have Florida represented in a creditable manner at the Great Jamestown Exposition in 1907, and at no cost whatever to the counties of Florida. Colonel T. J. L. Brown, president of the State Fair Association and chief fair commissioner to the Jamestown Exposition by appointment of Governor Broward, has decided upon and will carry out a most excellent and commendable plan. Colonel Brown intends that the various county exhibits at the coming State Fair shall be taken to Norfolk directly after the Fair closes, and at no expense whatever to the counties participating. In Norfolk he has entered into a contract with one of the greatest storage warehouses in the country to take care of the products, particularly those of a perishable nature, until the exposition, which will be attended by hundreds of thousands of people from all sections of the civilized world, opens. This will be done at the expense of the Exposition Commission, and in order to secure creditable representation it is the duty of the commissioners of every county in Florida to make preparations for having their county represented at the Fair, appointing a commissioner to collect exhibits, and making such an appropriation as is necessary to defray the actual expenses of exhibiting at the Fair. In this way counties will be represented without cost at the Great Jamestown Exposition, and the state will be benefitted incalculably.
